

Living Your Purpose Foundation Newsletter - 2023

Message from the Founder

Dear Donors,

Greeting of love and peace to you !

With your generous donations. we were able to increase our contributions in 2023 to our existing projects especially to the 'Feed the Poor Program' which caters to the old age homes and children orphanages . This year one of our major focus has been the Animal care project where we have provided water for the entire year to the deers and other animals in Chennimalai forest. This forests habitats more than 200 deers and other animals as part of its ecosystem. As part of this project, we have provided and installed concrete water tanks and replenished the existing water bunds in Chennimalai forest where we were able to provide almost ___ litres this year. This entire project involved working closely with the government officials in forest department and it came with lot of challenges . With God's blessings, we overcame all these challenges and delivered our promise to these animals.

In 2024, we have lined up few new projects and some of them are already in pilot mode in 2023.

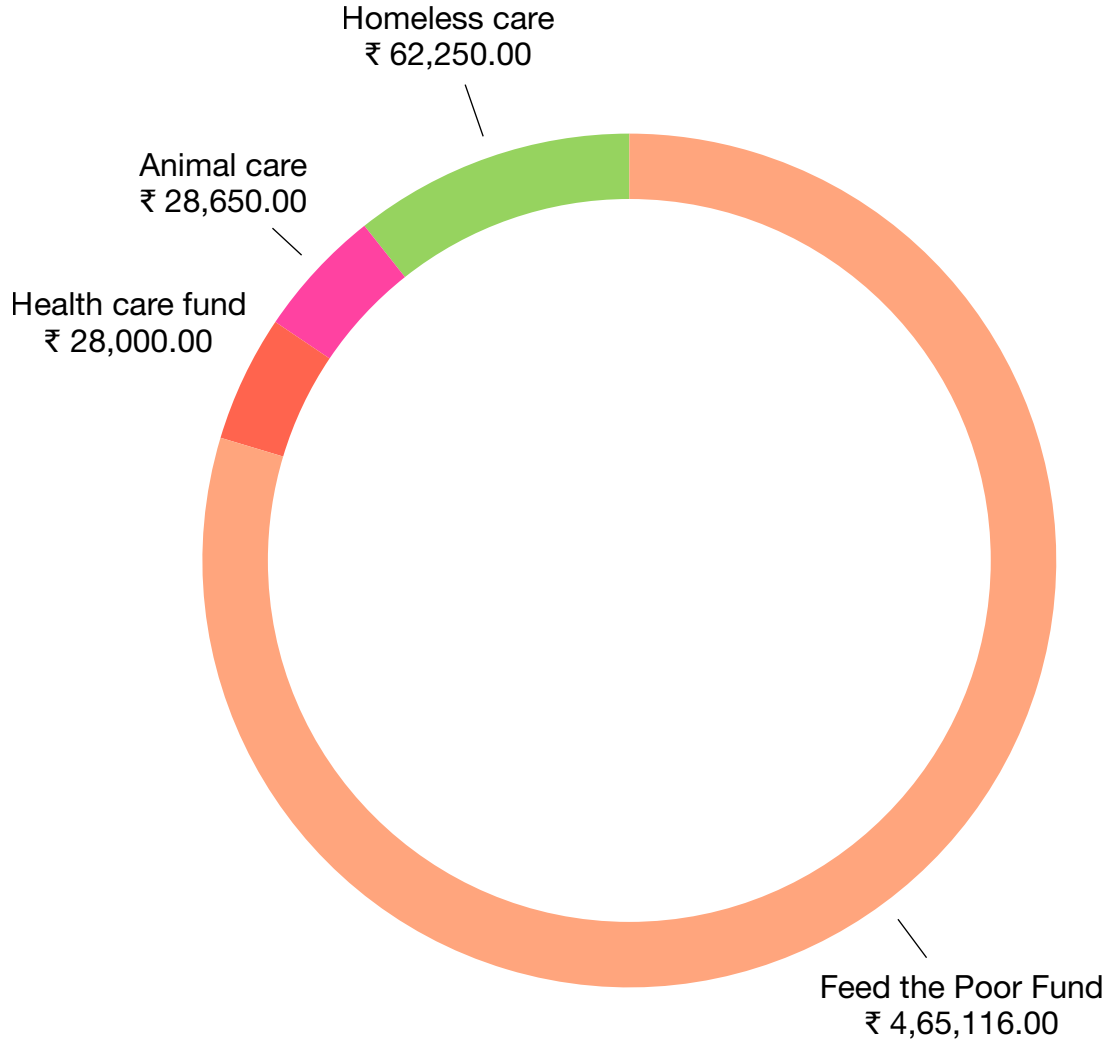

Keep giving wisely and bless all these projects. Needless to say that you will be blessed with abundance !

Have a blessed 2024 !

With respect,

Boobalan Nagendran
